Style.

PHILADELPHIA. Dec. 1.—A nose, which in lines and symmetry, compares favorably with the natural variety, has been manufactured from a soup bone by surgeons at the Samaritan Hospital for a twelve-year-old girl.

The girl was born without a nose. Her parents refrained from taking her out in public because of the attention her deformity attracted. Surgeons at the Samaritan Hospital decided that the girl could have a nose like any other person. Dr. W. Wayne Rabusak carved a nose along Greek lines from a soup bone.

An inc sion was made in the frontal

bone.

An incelen was made in the frontal bone of the skull, and the souphone nose securely fixed in position. Then the flesh of the face was stretched so that it covered the soup bone. Nostriffs were pierced in the flesh and the child was able to breathe freely through the new nose. In . few days she will be able to leave the hospital.
